

The chart displays wave height forecasts over time. The y-axis represents wave height in feet, ranging from 0 to 8. The x-axis shows dates from Sunday, February 23rd to Wednesday, March 5th. A red vertical line at Tuesday, February 24th indicates the start of the forecast period. The forecast bars are color-coded based on their accuracy: green for 'Excellent', purple for 'Very Good', blue for 'Good', yellow for 'Fair', orange for 'Poor', red for 'Noise', and grey for 'Unknown'. The forecast shows a significant increase in wave height starting around March 3rd, peaking near 8 feet on March 4th.
