

The chart displays wave height in feet on the y-axis (0 to 4) against time on the x-axis, from Tuesday, 03-Jun to Friday, 13-Jun. A vertical red line at approximately 04:00 on 04-Jun marks the start of the forecast period. The legend indicates five forecast accuracy levels: Excellent (green), Very Good (purple), Good (blue), Poor (yellow), and Noise (red). The bars are color-coded according to these levels. The wave height shows a general downward trend from 3.7 ft on 03-Jun to a minimum of 0.9 ft on 12-Jun, followed by a slight increase to 1.3 ft on 13-Jun.

Date	Time	Wave Height (ft)	Forecast Accuracy
