

The chart displays wave height in meters (y-axis, 0 to 5) against time (x-axis, July 3 to July 13, 2023). The forecast accuracy is indicated by the color of the bars. A red vertical line marks the 'row' date (July 4, 2023). The legend for forecast accuracy is as follows:

- Excellent (green)
- Very Good (purple)
- Good (blue)
- Poor (orange)
- Noise (red)
- Unknown (black)
