

The chart displays wave height in meters over a period of 10 days. The y-axis represents wave height in meters, ranging from 0 to 12. The x-axis shows dates from Friday, July 25 to Monday, August 4. A red vertical line indicates the current time ('now') on Sunday, July 27. The chart is divided into three sections: historical data (green bars), a forecast period (purple bars), and a forecast accuracy legend. The forecast period shows a general increase in wave height, peaking around 10 meters on Sunday, August 3.
