

The chart displays wave height data over a 12-day period. The y-axis represents wave height in feet, ranging from 0 to 8. The x-axis shows dates from Saturday, September 20 to Tuesday, September 30. The data is categorized into three regions: green (left), blue (middle), and yellow (right). A vertical red line is positioned at the start of the blue region. A legend on the right indicates forecast accuracy levels: Excellent (green), Very Good (blue), Poor (yellow), Noise (red), and Unknown (black).
