

The chart displays wave height in meters on the y-axis (0 to 14) against time on the x-axis (Oct 18 to Oct 28). A red dashed line at Oct 18 00:00 marks the start of the forecast period. The legend indicates the following forecast accuracy levels:

- Excellent (green)
- Very Good (blue)
- Good (purple)
- Poor (yellow)
- Noise (red)
- Unknown (black)

The data shows a transition from 'Excellent' to 'Unknown' forecast accuracy around Oct 23 00:00. Wave heights fluctuate throughout the period, with a notable peak around Oct 27 00:00.
