

Figure 10 is a bar chart showing wave height (m) and forecast accuracy for the period from Sunday, 19-Oct to Tuesday, 28-Oct. The y-axis represents wave height in meters, ranging from 0 to 10. The x-axis shows the days of the week. A red vertical line marks the start of the forecast period on Sunday, 19-Oct. The bars are color-coded by forecast accuracy: Excellent (green), Very Good (blue), Good (purple), Poor (yellow), and Unknown (red). The wave height generally increases from Sunday to a peak on Tuesday (around 8m) and then decreases, with a slight increase again on Tuesday, 28-Oct. The forecast accuracy is mostly 'Very Good' (blue) and 'Good' (purple) in the first half, and 'Poor' (yellow) and 'Unknown' (red) in the second half.
