

The chart displays wave height in meters (m) on the y-axis (0 to 10) against time on the x-axis, spanning from Thursday 23-Oct to Saturday 01-Nov. A red vertical line at the start of the data series is labeled 'Noise'. A green vertical line is labeled 'Poor' in the legend. The legend also includes 'Excellent' (green), 'Very Good' (blue), 'Good' (purple), and 'Unknown' (black). The bars are colored according to the forecast accuracy: green for 'Excellent', blue for 'Very Good', purple for 'Good', and black for 'Unknown'. The wave height generally decreases over time, with a notable peak around Friday 24-Oct and a significant drop around Saturday 01-Nov.
