

The chart displays wave height data over a period from 30-Oct to 08-Nov. A red vertical line marks the date 31-Oct. The y-axis represents wave height in meters (m), ranging from 0 to 14. The x-axis shows dates from Thursday 30-Oct to Saturday 08-Nov. A green shaded area indicates the 'Forecast Accuracy' range, with labels for Excellent (green), Very Good (blue), Good (purple), Poor (yellow), Noise (red), and Unknown (black). A blue shaded area represents the 'Wave Height' data. The wave height generally increases from 30-Oct to 03-Nov, then decreases, and then increases again from 05-Nov to 08-Nov.
