

Figure 10 is a bar chart illustrating the wave height (m) and forecast accuracy over time, from Thursday, 30-Oct to Sunday, 09-Nov. The y-axis represents wave height in meters, ranging from 0 to 20. The x-axis shows dates from Thursday, 30-Oct to Sunday, 09-Nov. A legend indicates forecast accuracy levels: Excellent (green), Very Good (blue), Good (purple), Poor (yellow), Noise (red), and Unknown (black). The chart shows a significant wave event peaking around October 31, followed by a period of lower wave heights and then a second peak around November 6-7.
