

The chart displays wave height in meters on the y-axis (0 to 8) against time on the x-axis (from Tuesday, 11-Nov to Thursday, 27-Nov). The bars are color-coded according to the forecast accuracy legend: Excellent (green), Very Good (blue), Good (purple), Poor (yellow), Noise (red), and Unknown (black). The data shows a significant peak in wave height around Sunday, 16-Nov, reaching nearly 8 meters, followed by a period of high variability and noise in the forecast.
