

Figure 10 is a bar chart showing wave height (m) and forecast accuracy for the period from 14-Nov to 24-Nov. The y-axis represents wave height in meters, ranging from 0 to 12. The x-axis shows dates from Friday 14-Nov to Monday 24-Nov. A vertical red dashed line at 14-Nov marks the start of the forecast period. The bars are color-coded by forecast accuracy: Excellent (green), Very Good (blue), Good (purple), Poor (red), and Unknown (black). The wave height generally decreases from 14-Nov to 16-Nov, then increases until 20-Nov, followed by a slight decrease and then a sharp increase on 23-Nov and 24-Nov.
