

Figure 1 is a bar chart showing wind speed in knots (kts) over a period from Tuesday, November 18 to Thursday, December 4. The y-axis represents wind speed in kts, ranging from 0 to 30. The x-axis shows the days of the week. A red vertical line is drawn on Wednesday, November 19, labeled 'row'. Arrows at the top of the chart indicate wind direction: from the left (easterly) for Nov 18-21, from the right (westerly) for Nov 22-25, and alternating directions for Nov 26-Dec 4.
