

The chart displays wave height data and forecast accuracy over a period of 11 days. The y-axis represents wave height in meters (0 to 12). The x-axis shows dates from Sunday 14-Dec to Wednesday 24-Dec. A vertical red line is positioned at the start of the data series. The forecast accuracy is indicated by colored bars: green for Excellent, blue for Very Good, yellow for Good, orange for Poor, and red for None. The wave height data is shown as green bars.

Date	Wave Height (m)	Forecast Accuracy
