

The chart displays wave height data over a period from Wednesday, December 31st, to Friday, January 9th. A red vertical line marks the 'now' position on Wednesday, December 31st. The y-axis represents wave height in feet, ranging from 0 to 8. The x-axis shows dates from Wed 31-Dec to Fri 09-Jan. A legend titled 'Forecast Accuracy' is located in the top right corner, with categories: Excellent (green), Very Good (blue), Good (purple), Poor (yellow), Noise (red), and Unknown (black). The bars are colored green, indicating 'Excellent' forecast accuracy for the entire period shown.
