

The chart displays wave height data over an 11-day period. The y-axis represents wave height in feet, ranging from 0 to 14. The x-axis shows dates from Thursday, January 1st, to Sunday, January 11th. A red vertical line on January 2nd marks the 'POW' (Power On Water) event. The data is color-coded by forecast accuracy: green for 'Excellent', blue for 'Very Good', purple for 'Good', yellow for 'Poor', red for 'Noise', and black for 'Unknown'. The wave height starts around 5 feet on Jan 01, peaks at approximately 12.5 feet on Jan 04, and then shows a significant increase starting on Jan 08, reaching a maximum of about 14 feet on Jan 09.
