

Figure 1 is a line graph showing wave height (m) versus time (date) for a buoy. The y-axis ranges from 0 to 6 meters, and the x-axis shows dates from 12/24 to 01/15. The graph displays a highly variable wave height, with a significant peak reaching approximately 6.2 meters on 01/09. A legend in the top left corner identifies the data as 'Buoy'.
