

The chart displays wave height in meters on the y-axis (0 to 12) against dates on the x-axis (Tue 20-Jan to Fri 30-Jan). A red vertical line at Tue 20-Jan indicates the start of the 'new' period. The bars are color-coded by forecast accuracy: Excellent (green), Very Good (blue), Good (purple), Poor (yellow), Noise (red), and Unknown (grey). The wave height shows a general downward trend from Tue 20-Jan to Tue 27-Jan, followed by a period of low wave height (around 3m) from Wed 28-Jan to Thu 29-Jan, and then a sharp increase to over 10m on Fri 30-Jan.
