

The chart displays wave height in meters over a period of several days. A red vertical line marks the 'Low' tide on Friday 23-Jan. The forecast accuracy is indicated by the color of the bars, with a legend on the right showing categories: Excellent (green), Very Good (blue), Good (purple), Poor (yellow), Noise (orange), and Unknown (black). The wave heights show a significant peak around 10m on Thursday 29-Jan.
