

The chart displays wave height data and a forecast. The y-axis represents wave height in meters (0 to 10). The x-axis shows dates from Saturday, January 24, to Tuesday, February 3. A red dashed line at January 25 indicates the start of the forecast period. The forecast accuracy is categorized as follows:

- Excellent (Green)
- Very Good (Blue)
- Good (Purple)
- Poor (Yellow)
- Noise (Orange)
- Unknown (Black)

The data shows a general increase in wave height from January 24 to a peak around January 31, followed by a slight decrease and then a sharp increase again towards the end of the period.
