

The chart displays wave height data and forecast accuracy. The y-axis represents wave height in meters (0 to 10). The x-axis shows dates from Tuesday 27-Jan to Friday 06-Feb. A red vertical line at Wednesday 28-Jan is labeled 'now'. Forecast accuracy is indicated by colors: Excellent (green), Very Good (blue), Good (purple), Poor (yellow), Noise (red), and Unknown (black). Wave heights are shown as black bars, with a significant peak around 31-Jan reaching nearly 9m.
