

The chart displays wave height in meters over a period of 10 days. The y-axis ranges from 0 to 12 meters. The x-axis shows dates from Wednesday, 28-Jan to Saturday, 07-Feb. A red vertical line at the start of Jan 28 indicates the beginning of the 'Noise' period. The legend indicates that the green bars represent 'Excellent' forecast accuracy. The wave height shows a general upward trend with significant fluctuations, peaking at approximately 11 meters around Feb 02 and again around Feb 06.
