

Figure 10 is a bar chart titled "Wave Height, ft" on the y-axis, which ranges from 0 to 6. The x-axis shows dates from Tuesday, 03-Feb to Friday, 13-Feb. The chart is divided into five forecast accuracy regions: Excellent (green), Very Good (blue), Good (purple), Poor (orange), and Noise (red). A vertical red line marks the start of the "Noise" region on Tuesday, 03-Feb. The wave height generally increases from Tuesday to Friday, peaking around 6 ft on Friday, and then decreases. The "Forecast Accuracy" legend is located in the top right corner.
