

Map of surface pressure over the Sierra Leone region. The map shows contour lines of surface pressure in mb, with values ranging from 1015.8 to 1017.0. A color bar on the right indicates the pressure scale. The map includes the coastline of Sierra Leone and surrounding waters. A yellow dot marks the location of the PPL EBS station, and a star marks the location of the CSA (ONHYM) station. The map is labeled with 'Sierra Leone' and 'PPL EBS'.
