

Figure 1 is a contour plot showing surface pressure (mb) over a region of the Atlantic Ocean. The x-axis represents Longitude, E, ranging from -7 to -3.5. The y-axis represents Latitude, N, ranging from 2 to 6. The plot displays pressure contours with values ranging from 1012 to 1013.8 mb. A star marks the location of the Cote d'Ivoire station at approximately 5.1°N, -5.1°E. The plot is titled "CSA (ONHYM) PPL EBS - Cote d'Ivoire".
