

The figure consists of two vertically stacked bar charts sharing a common x-axis representing time from January 30 to February 14. The top chart displays 'Wind Speed, kts' on the y-axis (0 to 25). The bottom chart displays 'Wave Height, ft' on the y-axis (0 to 8). Both charts use a color-coded system for forecast skill: Excellent (green), Very Good (blue), Good (purple), Poor (yellow), Noise (red), and Unknown (black). The x-axis is labeled with dates from 'now' (Fri 30-Jan) to 'Sat 14-Feb'. The bottom chart also includes a 'Period, sec' label at the bottom left, with values ranging from 5 to 8 seconds indicated by arrows above the bars.
